Commissioner

## **DRUG RESIDUE POLICY**

A confirmed positive drug residue sample results in permit suspension.

For permit reinstatement:

- A. A negative sample and producer signed "Application for Reinstatement" must be received by the Milk Safety Branch prior to reinstatement. Can be Faxed to Milk Safety Branch.
- B. A state milk inspector will make a farm visit to discuss the drug residue suspension within 21 days of reinstatement.
- C. Forms for disposal of milk are required by **FDA** and documentation must be received by the Milk Safety Branch.
- D. Producers suspended three (3) times in a year for drug residue, are required to attend a hearing in Frankfort, Ky.

**The Milk Safety Branch will notify plant, state milk inspector and producer (by letter) when a producer is suspended or reinstatement.**

**It is the plants responsibility to notify hauler, producer, and fieldmen when a producer is suspended and reinstated.**
